

JET Mobile Financial System

Jet Mobile Financial System

carrier-grade solution for subscribers to use their mobile accounts to make mobile payments, mobile transfers, perform various mobile banking and other operations to pay for operator services.

Jet Mobile Financial System is a very scalable, high-performance solution for processing payments and money transfer between subscribers' accounts. Transaction processing is carried out with a guaranteed lack of downtime. High-speed network interfaces allow JMFS to easily integrate with existing payment systems, such as SWIFT, VISA, MC, AMEX and ISO8583.

JMFS can receive transactions via a variety of standard telecommunication channels (SMS, IVR, WAP, e-mail, USSD) for different means of payment, including prepaid and postpaid mobile accounts, credit and debit cards, scratch cards. The platform also manages complex financial transactions involving multiple parties, integrates with different telecom systems and networks, including billing, balance and subscribers databases.

Easy integration with existing payment systems

Can receive transactions through various standard telecommunication channels

Integrates with different telecommunication systems and network elements

JET Mobile Financial System

MOBILE PAYMENTS

For relatively small payments such as retail purchases, restaurant bills, cafes and parking fee, subscribers can use mobile device and make payments directly from “stored value account”. Information about such accounts is stored in mobile commerce system. Subscribers can put money on such accounts using traditional payment methods, such as credit or debit cards, bank accounts, payment terminals.

MOBILE TRANSFER

Operators can use JMFS to create a system of person-to-person money transfer through their mobile accounts, saving people from having to pay cash.

MOBILE BANKING

JMFS allows operators to offer subscribers ability to make payments from their bank account via mobile phone and use mobile phones as a convenient way for bill payments of, balance check and funds transfer between bank accounts.
